Course Hosts

Massimo Danese, MD

President, Italian Society of Regenerative Medicine
Regenerative Medicine Unit Head San Giovanni H. Rome
Past President Italian Soc Clinic Experim Phlebology
v-WIN foundation honorary member

Rocco Giudice, MD

Vascular Unit Head San Giovanni H. Rome
v-WIN foundation honorary member

Course VISION

VIPP is the acronym for **V**enous **I**nsufficiency **P**ersonal & **P**ractical and in its «**PERSONAL**» feature is possible to identify the key benefit provided to the attendees: a **top quality evidence-based educational experience**, tailored to the **personal practical needs** of the participant. Different modules are available and designed on the specific course audience. On April 4-5, 2025, VIPP will customize its content focusing on office and evidence-based best vein-lymphatic care. In this module, the attendees enjoy lectures and in-depth analysis of the scientific literature everybody should know in **Ultrasound, Endovenous Devices, Sclerotherapy, Compression and Venous Active Drugs**. Practical **workshops** enhance the **hands-on** experience of the participants, with a maximization during **live cases**, in which every attendee has the chance to join the operating room. The international audience provide a **professional** and **personal great networking chance**. Not by coincidence, the Directors of this course come from **Turkey, Italy and France**. Not by coincidence the course is hosted in Rome, where all the world can easily join and enjoy the chance of **institutional top level educational sharing**, while even showcasing their knowledge by sharing their personal free communications, in the typical "one teach one" vision of v-WIN foundation.

PROGRAM

Monday, Apr 7, 2025

13.15 – 14.00 registration & welcoming

14-15.00 PRE-OP CLINICAL & ULTRASOUND ASSESSMENT

DISCUSSION TRIGGER: Danese M

14.00-14.15 **Clinical & Hemodynamics considerations** (Gianesini S)

14.15-14.25 Open discussion

14.25-14.40 **Deep & pelvic venous insights** (Doganci S)

14.40-14.50 Open discussion

14.50-14.55 **Ultrasound tips & tricks for vein access** (Gianesini S)

14.55-15.00 Open discussion

15.00 – 16.00 **TT + NTNT state of the art & science**

DISCUSSION TRIGGER: Giudice R

15.00-15.15 **TT- NTNT evidence & indications** (Gianesini S)

15.15-15.25 Open discussion

15.25-15.40 **TT- NTNT complications management** (Doganci S)

15.40-15.50 Open discussion

15.50-15.55 **TT-NTNT technical tips & tricks** (Gianesini S)

15.55-16.00 Open discussion

16.00-16.30 Coffee break

16.30-17.30 **HANDS ON 1** (5 attendees)

Group **V**: Ultrasound Area + Sclero + Compression (Josnin M)

Group **I**: RF + sclero (Gianesini S, Giudice R)

Group **P**: Venaseal (Danese M, Doganci S)

17.30 – 18.30 SCLEROTHERAPY LECTURES

DISCUSSION TRIGGER: Danese M

17.30-17.45 **Sclerotherapy safety, indications & contra-indications** (Gianesini S)

17.45-17.55 Open discussion

17.55-18.05 **Therapeutic & Aesthetic Sclerotherapy technical notes** (Josnin M)

18.05-18.15 Open discussion

18.15-18.25 **The sclerotherapy world I saw and the one I'd like to see** (Josnin M)

18.25-18.35 Open discussion

18.30 – 19.30 **WE LEARN FROM EACH-OTHER SESSION: attendees contributions**

DISCUSSION TRIGGER: Doganci S, Josnin M, Gianesini S

18.30-19.00 **Round table**

19.00-19.30 **Open discussion**

Tuesday, Apr 8, 2025

08.00-09.00 COMPRESSION

DISCUSSION TRIGGER: Danese M

08.00-08.15 **Lymphatics & compression in the Phlebology Office** (Gianesini S)

08.15-08.25 Open discussion

08.25-08.40 **Post-procedural compression** (Gianesini S)

08.40-08.50 Open discussion

08.50-08.55 **Ajustable compression wraps: state of the art & of the science** (Gianesini S)

08.55-09.00 Open discussion

09.00-10.00 PERI-PROCEDURAL MANAGEMENT

DISCUSSION TRIGGER: Giudice R

09.00-09.15 **Peri-procedural thrombo-inflammation management** (Gianesini S)

09.15-09.25 Open discussion

09.25-09.40 **Do we really need venous active drugs?** (Gianesini S)

09.40-09.50 Open discussion

09.50-09.55 **Vein-lymphatic life-style top 5 highlights** (Gianesini S)

09.55-10.00 Open discussion

10.00 –10.30 Coffee-break

10.30–11.30 **HANDS ON 2**

Group **I:** Ultrasound Area + Sclero + Compression (Josnin M)

Group **P:** RF + sclero (Gianesini S)

Group **V:** Venaseal (Danese M, Doganci S)

11.30-12.30 **HANDS ON 3**

Group **P:** Ultrasound Area + Sclerov+ Compression (Josnin M)

Group **V:** RF + sclero (Gianesini S)

Group **I:** Venaseal (Danese M, Doganci S)

12.30-13.30 **WE LEARN FROM EACH-OTHER lunch SESSION: attendees contributions**

DISCUSSION TRIGGER: Doganci S, Josnin M, Gianesini S

12.30-13.15 **Free talk 7 to 15**

13.15-13.30 **Open discussion**

13.30-14.30 **WRAP-UP SESSION**

DISCUSSION TRIGGER: Danese M, Giudice R

13.30-13.50 **Highlights from the VIPP Operating Rooms** (Gianesini S)

13.50-14.00 **Technical remarks**

14.00-14.15 **Certificates delivery**

14.15-14.30 **Attendees remarks**

14.30-15.30 **v-HELP voluntary ultrasound screening**

Università
degli Studi
di Ferrara

authorized spin-off

REGISTRATION

Registration includes attendance to frontal lessons, hands-on and live procedures. If interested in attending, kindly send a mail to info@vwinfoundation.com, including

1. CV
2. Reason why you would like to join
3. Type and number of performed venous procedures
4. Ultrasound scanning experience

A first come, first served policy will be followed.

COURSE VENUE

The frontal lessons and the hands-on experiences will be developed in the San Giovanni Hospital (Via dell'Amba Aradam, 8, 00184 Rome, ITALY).

ACCOMMODATION

The Organizing Secretary is at disposal to provide accommodation solutions and travel assistance at a discounted rate for the meeting attendees. Please note 2025 is a historic year to visit Rome due to the holy Jubilee. Reserving the accommodation in advance is strongly suggested.

FOOD & BEVERAGE

Coffee breaks and lunch will be served for free during the working hours.

ATTENDEES PROFILE

Maximum 15 attendees plus faculty will be included in the course in order to allow maximum educational exposure. All specialties involved in vein-lymphatic care are welcomed (general practitioners, surgeons, internal medicine, cardiology, rehab, sport medicine, nursing, etc).
